EXPLANATORY NOTE

This Current Report on Form 8-K/A is being filed as an amendment (this "Amendment") to the Current Report on Form 8-K which the registrant previously filed with the Securities and Exchange Commission on October 18, 2016 (the "Original Filing"). The sole purpose of this Amendment is to correct the inadvertent omission of the language in the seventh paragraph of the disclosure in Item 1.01 below from the Original Filing. Except for the foregoing, this Amendment does not modify or update any other disclosure contained in the Original Filing.

**Item 1.01 Entry into a Material Definitive Agreement**

On October 18, 2016, Capstone Turbine Corporation (the "Company") entered into a securities purchase agreement (the "Purchase Agreement") with certain accredited investors (the "Purchasers"), pursuant to which the Company agreed to sell to the Purchasers (i) in a registered offering, 3,600,000 shares of the Company's common stock, \$0.001 par value per share ("Common Stock"), and pre-funded Series B warrants to purchase up to 2,700,000 shares of Common Stock, which will be sold in lieu of Common Stock to those Purchasers whose purchase of Common Stock in the offering otherwise would result in the Purchaser beneficially owning more than 9.99% of the Company's outstanding Common Stock following the completion of the offering ("Series B Warrants"); and (ii) in a concurrent private placement, Series A warrants to purchase up to 6,300,000 shares of Common Stock ("Series A Warrants").

Pursuant to a placement agent agreement, dated as of October 18, 2016 (the "Placement Agent Agreement"), the Company engaged Oppenheimer & Co. Inc. as the lead placement agent for the offering and Roth Capital Partners, LLC as co-placement agent for the offering (collectively, the "Placement Agents"). The Company has agreed to pay the Placement Agents a placement agent fee equal to 6.7% of the aggregate purchase price of the securities sold in this offering. The Company also has agreed to reimburse the Placement Agents for certain of their expenses, in an amount equal to \$10,000, as set forth in the Placement Agent Agreement.

Each share of Common Stock will be sold at a price of \$1.20. Each Series B Warrant will have an exercise price of \$1.20 per share of Common Stock, \$1.19 of which will be pre-funded at closing and \$0.01 of which will be payable upon exercise. Each Series A

Warrant will have an initial exercise price of \$1.34 per share of Common Stock, and the exercise price (but not the number of underlying shares of Common Stock) will be subject to a “full ratchet” anti-dilution adjustment if the Company issues or is deemed to have issued securities during the two and one-half year period following the issuance of the Series A Warrants at a price lower than the then-applicable exercise price.

The net proceeds to the Company from the offering, after deducting the placement agent fees and other estimated offering expenses, are expected to be approximately \$6.8 million, without giving any effect to any exercise of the Series B Warrants or any sale or exercise of the Series A Warrants. The Company intends to use the proceeds from the offering to fund general working capital requirements and for other general corporate purposes. The closing of the offering is expected to take place on or about October 21, 2016, subject to the satisfaction of customary closing conditions.

The Purchase Agreement and the Placement Agent Agreement contain customary representations, warranties, covenants and agreements by the Company, indemnification obligations of the Company and the Placement Agents, including for liabilities under the Securities Act of 1933, as amended, other obligations of the parties and termination provisions. The representations, warranties and covenants contained in the Purchase Agreement and the Placement Agent Agreement were made only for purposes of the applicable agreement and as of specific dates, were solely for the benefit of the parties to such agreement, and may be subject to limitations agreed upon by the contracting parties.

The Company is offering the Common Stock, the Series B Warrants and the Common Stock issuable upon exercise of the Series B Warrants pursuant to the Company’s shelf registration statement on Form S-3 (Registration No. 333-203431) declared effective by the Securities and Exchange Commission on June 23, 2015, a related prospectus dated June 23, 2015 and a prospectus supplement to be dated October 18, 2016. The Company is offering the Series A Warrants and the Common Stock issuable upon exercise of the Series A Warrants in a private placement pursuant to the exemption provided in Section 4(a)(2) under the Securities Act of 1933, as amended, and Rule 506(b) promulgated thereunder, and neither the Series A Warrants nor the Common Stock issuable upon exercise thereof are being registered under the Securities Act or offered pursuant to the Company’s shelf registration statement on Form S-3 (Registration No. 333-203431) or by means of the related prospectus dated June 23, 2015 or prospectus supplement to be dated October 18, 2016.

The Company has reduced the dollar amount of its current at-the-market equity offering to \$12,183,864 as a result of this offering.

---

The foregoing descriptions of the Purchase Agreement, the Placement Agent Agreement, the Series B Warrants and the Series A Warrants do not purport to be complete and are subject to, and qualified in their entirety by, the full text of such documents, copies of which will be filed as exhibits to a subsequent Current Report on Form 8-K on or before October 21, 2016 and will be incorporated therein by reference. The legal opinion of Waller Lansden Dortch & Davis, LLP relating to the Common Stock and the Series B Warrants to be sold in the registered portion of the offering also will be filed as an exhibit to the subsequent Current Report on Form 8-K.
