Capstone Turbine Corporation Announces Second Quarter
Fiscal 2008 Operating Results

Second Quarter Revenue of \$7.2 Million Increased 145% from Same
Period Last Year and 28% from Prior Quarter

CHATSWORTH, Calif.--(BUSINESS WIRE)--Nov. 8, 2007--Capstone Turbine Corporation (R) (www.microturbine.com;) (NASDAQ:CPST) reported operating results for its second quarter ended September 30, 2007 in its Quarterly Report on Form 10-Q filed with the Securities and Exchange Commission on November 8, 2007.

Financial Summary

Capstone's total backlog at the end of the second quarter ended September 30, 2007 was \$10.4 million of which \$7.2 million is short term (within twelve months). Total backlog increased approximately \$5.1 million, or 96% from the first quarter ended June 30, 2007 and approximately \$3.6 million, or 53% from the end of the same period last year.

Revenue for the second quarter was \$7.2 million, an increase of approximately 145% from the \$2.9 million reported for the same period last year and \$1.6 million or 28% from the prior quarter. The increase is attributable to increased sales to the North American, European and Asian markets.

The reported gross loss for the second quarter was \$0.8 million, or 10% of revenue, compared to \$2.3 million, or 79% of revenue for the same period last year. The improvement in gross loss from the prior year was because of increased total volume and higher margin C-60 series units and lower warranty and inventory charges of \$1.3 million.

Research and development costs were \$2.4 million for the second quarter, a decrease of \$0.2 million, or 6% from the same period last year. R&D expenses are reported net of benefits from cost-sharing programs such as the United Technologies Corporation ("UTC") funding. The first \$1.5 million of the \$12.0 million due from UTC was received during the second quarter of which \$115,000 was applied against R&D expense. The remaining \$1.4 million will be recognized against R&D expense in future periods. There was approximately \$0.4 million of such benefits from another source for the same period last year. Overall net expenses were lower primarily because of lower labor and consulting spending, decreased development hardware, and reduced facilities expenses.

Selling, general and administrative costs were \$5.9 million for the second quarter, a decrease of \$0.2 million, or 3% from the same period last year. The reduction is primarily because of lower labor related costs, professional services, consulting and marketing expenses offset by increased travel and facilities expenses.

Capstone's net loss was \$8.5 million, or \$0.06 per share, for the second quarter, a decrease of \$1.9 million from the \$10.4 million loss, or \$0.10 per share, reported for the same period last year.

Cash balances decreased by \$4.0 million during the second quarter of fiscal 2008. As of September 30, 2007, cash and cash equivalents were \$46.3 million. Cash used in operations was \$5.4 million for the quarter compared to \$9.9 million for the prior quarter and \$9.6 million for the same period last year.

Conference Call

The Company will host a conference call today, Thursday, November 8, at 1:45 p.m. Pacific Time. Access to the live broadcast and a replay of the webcast will be available for 90 days through the Investor Relations page on the Company's website: www.microturbine.com.
